

## Morning Star Schools

### **Vision**

To be a world class school that will deliver top-notch education, innovation and training that not only transforms the lives of our students, but shapes the world we live in.

### **Mission**

To promote education by imparting knowledge, skills, moral ethics and godly virtues that will engender the overall growth and intellectual development of students who are stars and relevant to the society.

### **About Morning Star Schools**

Morning Star School made its debut into the Nigerian Educational Landscape in September 2004. The school is a modern learning co-educational institution situated in a serene environment, at Oke-Ureje, Federal Polytechnic road, Ado-Ekiti. The school can boast of a safe and serene environment equipped with up-to-date laboratory and technological facilities that enhance teaching and learning. The school aims at providing a well-rounded education. To this end, the school has in its employment experienced staff that are dedicated to the teaching profession.

**Welcome Address**

Education is worthwhile because it transforms our learners to enlightened persons and frees them from the shackles of ignorance. It is worthwhile because it gives our learners the necessary knowledge and understanding that will enable them compete favorably with their counterparts globally. It is worthwhile because it equips them with saleable life-skills that will make them live independent lives in future.

We believe there is ability in every child. We partner with parents to discover every child's potential and nurture it. We place equal focus on character education and academic learning experience and training on life development skills.

You are welcome to Morning Star Schools, the centre of excellence.
